

CAPPER FOUNDATION

TurnKey Writing Solutions
Nonprofit of the Month
January 2020

Who is Capper Foundation?

Capper Foundation has brought hope to thousands of infants, children and adults with disabilities and their families in Kansas, building abilities and empowering people of all ages over the course of their entire life.

What makes them unique?

A lot has changed in Capper's century of service. They have stayed relevant by understanding the need and providing programs to meet it, adapting to changing legislature and developing personal plans for patients.

Their Programs

Pediatric therapies, Adult Day-Residential-Job Employment and training and development for families and professionals help individuals with disabilities thrive and enhance their development toward independence.

How Can You Help?

Capper Foundation needs your help to raise awareness, fund scholarships, and advocate for people with disabilities. Follow them on social media, volunteer if you're local, make a donation, and help the people with disabilities in your life reach their highest level of independence.
